

Low Profile Knobs

These low profile shoulderless knobs have a black polypropylene base and grip ridges on the outside diameter. The threaded studs are available in zinc-plated steel or stainless steel. Other colors also available: clear, white, brown, blue, red, gray, etc.

Many colors available as custom option.

Threaded Nylon Knob Hubs/Sleeves

These glass-filled black nylon threaded knob hubs can be used for many applications as an adjustable height shoulder on a knob or leveler or stacked to create a sleeve to hide the threads of a leveler or knob. This will also help stabilize loads positioned near the top threads of long studs. They can also be used as a "thru-hole" knob or a locking nut.

* Patent Pending

Low Profile Socket Type Knobs

These low-profile polypropylene knobs are designed for use with socket head allen bolts or threaded rod of various lengths. They are available with three different female thread types: brass insert (-BI), steel hex nut (-HN), or threads molded directly into the polypropylene (-MT). The height of all base sizes is 3/8" thick. The PVC base is a flexible, non-skid and non-marring, rubber-like material.

PN (brass)	PN (hex nut)	PN(molded)	Thread	Base Dia.	Load (lbs.)

Low Profile Knobs

These low profile shoulderless knobs have a black polypropylene base and grip ridges on the outside diameter. The threaded studs are available in zinc-plated steel or stainless steel. Other colors also available: clear, white, brown, blue, red, gray, etc.

Top Hex (-HX) and Slot (-SL)

Many colors available as custom option.
