Ruggedized™ Light Duty (RLD) Low-Profile, Steel Swivel Stud Glides

The IEC Steel Base Ruggedized™ Light Duty (RLD) Swivel Glides are ideal for light to medium duty, high volume applications. The RLD series glides use advanced engineering design to create a rugged glide while lowering the manufacturing costs of this product family. These RLD glides incorporate many features requested by commercial and retail customers. They come standard with your choice of Top-A-Just™ features: Internal top allen-drive broached hex (-BR) or external top slotted hex (-HX-SL) for this base style in our Heavy-Duty Leveler catalog.

More thread sizes and lengths (including metric, stainless steel and female sockets) available for black trivalent zinc plating. Optional jam nut (add -JN to part number).

Ruggedized™ Light Duty (RLD) Low-Profile, Steel Swivel Stud Glides

The IEC Steel Base Ruggedized™ Light Duty (RLD) Swivel Glides are ideal for light to medium duty, high volume applications. The RLD series glides use advanced engineering design to create a rugged glide while lowering the manufacturing costs of this product family. These RLD glides incorporate many features requested by commercial and retail customers. They come standard with your choice of Top-A-Just™ features: Internal top allen-drive broached hex (-BR) or external top slotted hex (-HX-SL) for a socket or open end wrench. Six (6) steel base sizes to choose from: 3/4” to 4”. Steel stud and base with black trivalent zinc plating. Optional jam nut (add -JN to part number).

More thread sizes and lengths (including metric, stainless steel and female sockets) available for this base style in our Heavy-Duty Leveler catalog.

Features
- Black trivalent zinc
- Top hex drive options
- Top slot feature
- Loads to 1500 lbs
- Corrosion resistant
- 15 degree swivel
- 6 base diameters
- Optional jam nut (-JN)
- Optional Rubber Pad
- RoHS compliant

Applications
- Appliances
- Displays
- Racks
- Vending Machines
- Machinery
- Work tables
- Stages
- Decks
- Electronic equipment
- Enclosures

Ruggedized™ Light Duty (RLD) Low-Profile, Steel Swivel Stud Glides

The IEC Steel Base Ruggedized™ Light Duty (RLD) Swivel Glides are ideal for light to medium duty, high volume applications. The RLD series glides use advanced engineering design to create a rugged glide while lowering the manufacturing costs of this product family. These RLD glides incorporate many features requested by commercial and retail customers. They come standard with your choice of Top-A-Just™ features: Internal top allen-drive broached hex (-BR) or external top slotted hex (-HX-SL) for a socket or open end wrench. Six (6) steel base sizes to choose from: 3/4” to 4” . Steel stud and base with black trivalent zinc plating. Optional jam nut (add -JN to part number).

More thread sizes and lengths (including metric, stainless steel and female sockets) available for this base style in our Heavy-Duty Leveler catalog.

Features
- Black trivalent zinc
- Top hex drive options
- Top slot feature
- Loads to 1500 lbs
- Corrosion resistant
- 15 degree swivel
- 6 base diameters
- Optional jam nut (-JN)
- Optional Rubber Pad
- RoHS compliant

Applications
- Appliances
- Displays
- Racks
- Vending Machines
- Machinery
- Work tables
- Stages
- Decks
- Electronic equipment
- Enclosures
